**FIRE EXTINGUISHERS**  
**MAINTENANCE SCHEDULE**

(A) **Periodicity of Refilling/Testing of Existing and New Fire Extinguishers**

Sr.	Type of extinguisher	Periodicity
01	Dry Chemical Powder (DCP) BC type extinguisher	02 Years
02	ABC type fire extinguisher	03 Years
03	CO2 type fire extinguisher	03-05 Years
04	Automatic Modular type fire extinguisher	05 Years

**Note:- a. Initial weight should be taken while installation/ after refilling & recorded in presence of Branch staff**  
**b. After every two Year, examine the gas mass/ weight of CO2 fire extinguisher. If there is loss of more than 10% of Original weight, then it should be recharged.**

(B) **Refilling and Maintenance work:** Maintenance of fire extinguisher should be carried out as per guidelines issued in BIS 2190:2010.

- (i) All fire extinguishers must be discharged/ emptied before refilling of fire extinguishers. The demonstration of fire extinguishers will be given to staff members of branches and offices also
- (ii) Replacement of old gas cartridge and extinguishing media of the fire extinguisher.
- (iii) All fire extinguishers and refills and spare parts must confirm to performance and construction specifications as laid down IS 15683:2006 as amended from time to time by BIS.
- (iv) Proper cleaning of interior and exterior of fire extinguisher, polish the painted portion with wax polish, the brass/gun metal parts with metal polish, chromium plated parts with silver polish and plastic components to be thoroughly washed with soap solution and sun dried.
- (v) Record of maintenance, inspection and testing of all fire extinguishers should be handed over to concurred office/branch.
- (vi) Checking of nozzles, port hole, vent hole, cap assembly, syphon tube, safety pin/clip, discharge pipe etc.
- (vii) Checking wall bracket/ fire stand of fire extinguishers
- (viii) Checking coloring of fire extinguisher, if required then take a prior approval for same by zonal security office/Branch.
- (ix) After refilling paste inspection card to the body of the extinguishers indicating the serial number, date of refilling, next due date for refilling, due date for hydraulic testing etc.
- (x) Ensure that all joints are fully tightened and nozzle, vent hole etc. are free of dust/dirt.
- (xi) Operating instructions of fire extinguishers are legible and facing outward and in good visible condition.
- (xii) Checking of pressure gauge reading or indicator, it should be in operating range only.
- (xiii) Hydraulic Pressure test, wherever due should be carried out in conformity with the procedure and periodic laid down in BIS 2190:2010. If fire extinguisher are fails in Hydraulic testing then it will be replaced by new one after getting approval by Zonal Office.
